Indonesia

- Indonesia's Meteorological, Climatological, and Geophysical Agency ([BMKG](#)) reported a strong magnitude 6.8 earthquake which was later updated as magnitude 6.5, struck Ambon, Maluku Province on Thursday, 26 September 2019, at 06:46 (UTC+7). The earthquake was reported to have a shallow focus at 10-km depth, located about 40-km north east of Ambon (3.43°S,128.46°E). As of today, 27 September 2019 at 06:00 (UTC+7), there were 239 aftershocks with 41 quakes felt.
- According to Indonesia's National Disaster Management Authority ([BNPB](#)), the rapid needs assessment is still ongoing and the local government has received support from several agencies to continue the emergency response efforts in the field, together with [BNPB](#). Currently, the disaster is still within national capacities.
- The AHA Centre is continuously monitoring the situation and will issue updates should there be any significant development.

NEEDS:

- Shelter: 20 family tents, 30,000 tarpaulins, 20,000 blankets, 15,000 mats and mattresses, 20,000 lighting devices.
- Hygiene: diapers, sanitary napkins, water tanks, latrines.
- Food: 120 packages of baby foods, 20,000 packages of food and drinks (mineral water).
- Others: medicines, trauma care for children and teenagers.
